Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the original drawings are not formal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Reasons For Allowance

Claims 1 – 23 are allowable.

The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims the prior arts made of record fail to suggest a signal processing device and method that comprise a processor adapted to modify symbolic values at least to reduce a number of digits to represent the symbolic values, produce coded values and process the coded values in the signal processing device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
